- Performed inventory verification and stock control activities.
- Maintained accurate product and transaction records.
- Supported inventory accuracy through stock reconciliations.

TECHNICAL & SCIENTIFIC SKILLS

Microsoft Excel, Word, Outlook, Teams | Pastel Accounting | SAP SRS | Elixir | GAAP Systems
Basic Microbiology | Laboratory Safety | Experimental Documentation | Data Analysis | Equipment Calibration
Awareness | Quality Control Principles

PROFESSIONAL DEVELOPMENT

Bloodborne Pathogens Training (2022)
Understanding Clinical Research (2022)
Infection Prevention and Control Principles (2023)
Supervisory Skills Certification (2021)

TARGET ROLES

Quality Control Assistant • Quality Assurance Assistant • Laboratory Assistant • Laboratory Administrator •
Documentation Controller • Compliance Administrator • Food Safety Assistant
